## OUR TRAINING AND EDUCATIONAL ACTIVITIES

From the day that The Türkiye Diyanet Foundation was found, it aims to train specialists that understand our deep-rooted heritage of civilization, worries about the ummah and has high self-esteem.

Our Foundation, which provides scholarships to successful students, opens higher education student dormitories, student guest houses, colleges, and universities and establishes bridges of hearts between nations by offering students from 114 countries the opportunity to study in Türkiye with projects such as International Anatolian Imam Hatip High School, International Theology Undergraduate, and Graduate Programs.

Our Foundation meets the deficit in the area of education by providing opportunities for more than 50 years of experience and extensive knowledge.

## Education Is Our Priority

As part of its international outreach programs, the Foundation supports educational initiatives in 12 countries: Azerbaijan, Kyrgyzstan, Bangladesh, Romania, Bulgaria, Kosovo, Pakistan, Palestine, Afghanistan, Tanzania, Syria, and Somalia, providing educational and scholarship opportunities to approximately 12,300 students across 34 institutions. Since the establishment of these programs, a total of 19,639 students have successfully graduated.

Within the broader framework of the Foundation's educational activities, the Diyanet Scholarship Programs constitute a key strategic pillar. Currently, 3,386 international students from 114 countries are pursuing their studies in Türkiye, enrolled in Imam Hatip High Schools as well as undergraduate, master's, and doctoral programs in the Faculties of Theology.

In accordance with establishment purpose of our Foundation, we have been supporting and contributing religious education activities in the Muslim societies whole around the world.

## THE PURPOSE OF THE PROGRAM

Postgraduate scholarship programs in theology enable students to gain the ability to access, compile, interpret and evaluate knowledge using scientific research methods. It provides the student with the necessary skills to conduct independent research, analyze and interpret scientific problems and data with a wide and deep perspective, and reach new syntheses.

In addition to gaining a perspective on the nature and purpose of scientific study, it is our goal that our scholars who intend to acquire critical thinking and interpretation skills provide comprehensive ethical solutions to the problems of our age with the Islamic science and thought tradition, perspective on scientific knowledge, scientific work ethic and discipline. Pieces of training to be given to our scholarship holders for this purpose include applied courses which will enable them to gain basic skills such as methodology, research, writing and presentation techniques that they will need in their postgraduate education.
